

UiPath Training

1	RPA Demo	<ul style="list-style-type: none">📖 RPA Introduction📖 RPA Tools in the Market📖 UiPath Components📖 UiPath Software Installation📖 Types of applications can be automated
2	UiPath Interface, Workflows	<ul style="list-style-type: none">📖 UiPath Ribbons, Panels📖 Types of Workflows📖 Sequence📖 Flowchart📖 State Machine
3	UiPath Core Activities	<ul style="list-style-type: none">📖 Package Install/Uninstall
4	Variables, Data Types	<ul style="list-style-type: none">📖 What is Variable?📖 Data Types of Variables📖 Assign Values to Variables📖 Variable Scope
5	Conditions and Loops	<ul style="list-style-type: none">📖 If activity📖 While📖 Do While📖 For Each📖 Switch
6	Flow changers	<ul style="list-style-type: none">📖 Flow Decision📖 Flow Switch
7	Invoke Activities	<ul style="list-style-type: none">📖 Invoke Workflow📖 Arguments

		<ul style="list-style-type: none"> Index of Sub String
16	Files and Folders	<ul style="list-style-type: none"> Create Directory, File Delete File Copy File Get Each File from given location
17	Email Automation	<ul style="list-style-type: none"> Web incoming and Outgoing Emails Outlook incoming and outgoing Emails
18	Debugging and Exception Handling	<ul style="list-style-type: none"> Step by step execution Finding validation errors Types of exceptions Try Catch Exception
19	Web Services	<ul style="list-style-type: none"> REST API
20	Parallel Activities	<ul style="list-style-type: none"> Parallel For Each Parallel
21	Database Activities	<ul style="list-style-type: none"> Establish Connectivity Retrieving Data Data Retrieval Data Update
22	Ui Automation	<ul style="list-style-type: none"> Find Image Image Exists Anchor base Retry Scope
23	XML & JSON Automation	<ul style="list-style-type: none"> XML Activities JSON Activities
24	Data Inputs	<ul style="list-style-type: none"> Input Dialog Custom Input UiPath Forms

25	Orchestrator	<ul style="list-style-type: none"> Orchestrator Components Robot Creation Project Publish to Orchestrator JOB Execution Job Scheduling Assets Queues Monitoring Job, check Logs
26	RE Framework	<ul style="list-style-type: none"> What is RE Framework? Advantages of RE-Framework RE-Framework implementation? Sample Project
27	Real Time Project Explanation	<ul style="list-style-type: none"> Real Time use cases Project Description PDD SDD Project Timelines Test cases
